in just a little bit
you’ll make the lights go out
in just a little bit
i’ll come back to the ground

in just a little bit
(take every little thing about you)
i’ll be sorry to say
(times every single star above)
in just a little bit
(that’s half of what is great about you)
i’ll be sad you’ve gone away
(that’s half of everything i love)

…**Chorus 1**…

Chorus 2:

words they don’t mean much
(take every little thing about you)
but that don’t matter

you’re my favorite girl
(times every single star above)
don’t try and stop me

catch me as I fall
(that’s half of what is great about you)
i love it when you

move i get so scared
(that’s half of everything i love)
you almost drop me

show me your cartoons
(there’s not a thing that’s sad about you)
and let me make the

sounds- you do them too
(it let’s you float around above)
i gotta tell you

you’re my favorite song
(you’ll always be my abbee baby)
i love it when you

hum my favorite tune
(you’ll always be my favorite girl)
my abbee baby
